

Marke: NEUTRAL

A schematic diagram of a specimen. It consists of a central rectangular region with a light gray-to-white gradient, labeled with a diameter d . This central region is flanked by two dark gray regions. The dark gray regions have diagonal cuts on their outer edges, forming a V-shape pointing outwards.

A diagram of a V-shaped notch. The notch is formed by two sloped sides meeting at a sharp point at the bottom. The left side is labeled 'B' and the right side is labeled 'A'. The bottom point of the notch is labeled 'C'.
